As an owner/property manager of rental property within Payson City, you can elect to have the utilities automatically reconnected in your name when a tenant disconnects utility services. The advantage is that the electricity and water are not physically turned off so problems such as pipes freezing, automatic sprinkling systems not working, etc. are avoided. **If the utilities are put back in your name, you will be responsible for the payment of the utilities provided to the property** at the rates established by the Payson City Council until you request they be disconnected or the next tenant has them reconnected in his/her name. The utilities shall include power, water, sewer, garbage, recycling, pressurized irrigation, storm drain, and energy and sales taxes on electricity. To avoid power and water charges, you must request the termination of power and water services to the premises. Pressurized irrigation and storm drain are not metered and therefore cannot be terminated.
